

Smile

Relax

*Be yourself.*

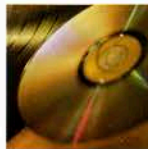

*We'll give you 1/60th of a second.*

That's been the deal with senior portraits. Until now. The split-second click of the camera used to be the end. With Seniors 2000, it's only the beginning. So relax. You don't need to be perfect. You just need to be real.

# Explore

Which "you"  
is the camera going  
to capture?  
Shouldn't you  
be in control?

Freedom isn't a word you expect to hear from a portrait studio. That's what makes us different. We're into

expanding your horizons, not shackling your spirit. Want to include an image

that shows people what you're into? Maybe something you

created yourself? Whatever. We'll make it happen. With Seniors 2000,

it's not just a "school picture." Finally, you're the master of

your senior image. You're in the driver's seat.
